

## i want Columbus

New Website

A pet project of mine. It is a search engine for young, Columbus residents to find events, locations, and food right now or at a specified time in the future. It also allows users to post and rate items. It is still in development.

Media: Photoshop, Stock photography, HTML, CSS

Skills: Web design, Graphic design, Usability testing, Competitor research, Wireframes, Copywriting

The screenshot shows the homepage of the 'i want Columbus' website. At the top, there is a search bar with the text 'i want music, cheap food on 12/3/08 to (optional) at 11:14 pm to (optional) go'. Below the search bar is the website logo 'i want Columbus' and a navigation menu with links for 'Browse', 'Post', 'Rate', 'About', and 'Contact'. A large green banner features the text 'Want to do something in Columbus right now? Or maybe Thursday between 6 and 8?' and 'We've gathered all the great events, locations, and food so you can get what you want, when you want'. Below the banner are two columns: 'i want it now' with a search for 'coffee free wifi' and a 'go' button, and 'i want to advertise' with a 'show me how' button. A section titled 'i want popular' has tabs for 'events', 'locations', and 'food'. It displays three items: '\$1 Hamburgers' at Bar Louie, 'Happy Hour' at Figlio Grandview, and 'Highlighter Party' at Newport Music Hall. Each item includes a rating of five stars and a 'check it out' button. Below this is a 'Gallery Hop' at Short North. A 'Popular Searches' section lists various categories like '18+', '21+', 'Bar', 'Cafe', 'Campus', 'Cheap Food', 'Concert', 'Dancing', 'Delivery', 'Drink Specials', 'Food Specials', 'Free', 'Free Wifi', 'German Village', 'Grandview', 'Happy Hour', 'High Street', 'Late Night', 'MUSIC', 'Outdoor Seating', 'Party', 'Pizza', 'Sale', 'Shopping', 'Short North', and 'Victorian Village'. The footer contains 'Copyright 2008'.

## Other Pages

The screenshot shows the search results page for 'music, cheap food' on October 30th, 2008, at 11:14 pm. The page displays a list of search results, including '\$1 Hamburgers' at Bar Louie, 'Free Wifi' at Figlio Grandview, and 'Highlighter Party' at Newport Music Hall. Each result includes a rating of five stars and a 'check it out' button. The page also features a 'Did you mean' section with suggestions like 'i want Columbus' and 'i want Columbus'. The footer contains 'Copyright 2008'.

## OSU Women's Health Center

New Website

A prototype for the Women's Health Center in the Ohio State University Medical Center. It offers information on the center, and also offers tools which I created to help drive traffic to the building itself.

Media: Photoshop, Stock photography

Skills: Web design, Graphic design, Usability testing, Competitor research, Surveys, Use cases, Wireframes, Focus groups, Personas, Site maps, Branding, Copywriting

## TWICE Website

A redesigned website for a nonprofit organization which links female computer science students with local communities to help teach new technology. It is still under construction.

Media: Photoshop, Dreamweaver, HTML, CSS, Javascript, PHP, Google Search

Skills: Web design, Graphic design, Web development, Search engine optimization

The screenshot displays the TWICE website interface. At the top left is the logo for TWICE (The Women in Computer Engineering). To the right is a search bar with the text "Google™ Custom Search" and a "Search" button. Below the logo is a horizontal navigation menu with the following items: Membership, Activities, History, Resources, Sponsors, How to Help, and Contact Info. The main content area features a large group photograph of six young women. Below the photo are three placeholder boxes labeled "Feature #1", "Feature #2", and "Feature #3". To the right of the main content is a "News" section with three entries, each consisting of a truncated article title and the date "11/30/07". Below the news is a "Buy Twice Gear" section featuring a white t-shirt with the TWICE logo. A link "Show your Support >>" is positioned below the t-shirt. The footer contains a "A special thanks to our sponsors:" section with logos for Microsoft, GE Foundation, INGRAM, White Castle, and LOCKHEED MARTIN. To the right of these logos are links for "CRA Committee on the Status of Women in Computing research (CRA-W)", "Raytheon", and "OSU College of Engineering". At the bottom center are navigation links for "Home", "Contact Us", "Site Map", and "Webmaster".

## Nationwide Bank Employee Profile Pages

A collection of employee profiles for Nationwide Bank's intranet. The design is similar to profile pages from other departments. It needed to be simple and easy to update by someone with limited html experience.

Media: Photoshop, Dreamweaver, HTML, CSS, Javascript

Skills: Web design, Graphic design, Web development, Branding, Typography

**Weadock, Michelle** Consultant, Marketing Campaigns for the Marketing Department  
weadocm@nationwide.com 2-16-02 677-9283 (office) 668-9593 (cell)

**What I do each day**

- Provide communication support for our integration efforts
- Strategize and implement marketing and communication efforts for current and potential customers
- Act as a liaison with other communicators within Nationwide

**How long I've been at Nationwide**  
19 years

**How long I've worked in the banking industry**  
8 years

**The highlights of my work history**  
I began as a communications intern in my senior year at OSU. Ever since that time, I've worked in various communication and marketing roles within Nationwide. Other jobs that paid me money include: waitress, bartender, golf course beer cart gal, pizza maker, newspaper reporter, OSU alumni fundraising solicitor, movie critic, ESL tutor for Honda families, and substitute teacher. Other jobs that have paid off in other, sometimes more fulfilling ways, include: Board of Trustee for the Hilliard Education Foundation, Founder of the OSU/Nationwide Alumni Club, Board of Director for the Hilliard YMCA, Co-Chair for the 150th YMCA Gala, PTO President & Vice President, Yearbook Coordinator, Religious Ed Teacher, Hilliard Parks & Rec Swim Club VP and Mom.

**Where I grew up**  
In the small rural Northwest Ohio town of Ottoville – population 800 – a real life Mayberry

**What I like to do outside of work**  
I like to spend time with my girls – in the summer that means at the pool!  
I veg out to Law & Order, CSI and any other legal or crime procedural series – thank goodness for DVRs!

**My favorite place to vacation**  
The Outer Banks

**My favorite movie and/or book**  
Movie: Anything by Alfred Hitchcock  
Book: The Harry Potter series

**My favorite quote**  
"Success" by Ralph Waldo Emerson  
To laugh often and much;  
To win the respect of intelligent people and the affection of children;  
To earn the appreciation of honest critics and endure the betrayal of false friends;  
To appreciate beauty; to find the best in others;  
To leave the world a bit better whether by a healthy child, a garden patch or a redeemed social condition;  
To know even one life has breathed easier because you have lived.

### Revolutionary New Insoles Combine Five Forms Of Pseudoscience

March 31, 1999 | Issue 35•12

MASSILLON, OH—Stressed and sore-footed Americans everywhere are clamoring for the exciting new MagnaSoles shoe inserts, which stimulate and soothe the wearer's feet using no fewer than five forms of pseudoscience.

"What makes MagnaSoles different from other insoles is the way it harnesses

the power of magnetism to properly align the biomagnetic field around your foot," said Dr. Arthur Bluni, the pseudoscientist who developed the product for Massillon-based Integrated Products. "Its

**"MagnaSoles is not just a shoe insert...it's a total foot-rejuvenation system."**

patented Magna-Grid design, which features more than 200 isometrically aligned Contour Points™, actually soothes while it heals, restoring the foot's natural bio-flow."

"MagnaSoles is not just a shoe insert," Bluni continued,

"it's a total foot-rejuvenation system."

According to scientific-sounding literature trumpeting the new insoles, the Contour Points™ also take advantage of the semi-plausible medical technique known as reflexology. Practiced in the Occident for over 11 years, reflexology, the literature explains, establishes a correspondence between every point on the human foot and another part of the body, enabling your soles to heal your entire body as you walk.

But while other insoles have used magnets and reflexology as keys to their appearance of usefulness, MagnaSoles go several steps further. According to the product's website, "Only MagnaSoles utilize the healing power of

crystals to re-stimulate dead foot cells with vibrational biofeedback... a process similar to that by which medicine makes people better."

In addition, MagnaSoles employ a brand-new, cutting-

edge form of pseudoscience known as Terranometry, developed specially for Integrated Products by

some of the nation's top pseudoscientists.

"The principles of Terranometry state that the Earth resonates on a very precise frequency, which it imparts to the surfaces it touches," said Dr. Wayne Frankel, the California State University biotrician who discovered Terranometry. "If the frequency of one's foot is out of alignment with the Earth, the entire body will suffer. Special resonator nodules implanted at key spots in MagnaSoles convert the wearer's own energy to match the Earth's natural vibrational rate of 32.805 kilofrankels. The resultant harmonic energy field rearranges the foot's naturally occurring atoms, converting

the pain-nuclei into pleasing comfortrons."

**"Why should I pay thousands of dollars to have my spine realigned with physical therapy when I can pay \$20 for insoles clearly endorsed by an intelligent-looking man in a white lab coat?"**

Released less than a week ago, the \$19.95 insoles are already proving popular among consumers, who are hailing them as a welcome alternative to expensive, effective forms of traditional medicine.

"I twisted my ankle something awful a few months ago, and the pain was so bad, I could barely walk a single step," said Helene Kuhn of Edison, NJ. "But after wearing MagnaSoles for seven weeks, I've noticed a significant decrease in pain and can now walk comfortably. Just try to prove that MagnaSoles didn't heal me!"

Equally impressed was chronic back-pain sufferer Geoff DeAngelis of Tacoma, WA.

"Why should I pay thousands of dollars to have my spine realigned with physical therapy when I can pay \$20

for insoles clearly endorsed by an intelligent-looking man in a white lab coat?" DeAngelis asked. "MagnaSoles really seem like they're working."

Noted biotrician Dr. Wayne Frankel points out some of the unique properties of MagnaSoles.

## Design 201

### Negative Space Paper Cutout

A negative space drawing. The final is done in cut paper.  
The concept is done in pen.
